

BROWN UNIVERSITY.

OPENING OF THE ACADEMIC YEAR.

FRANCIS ANTHONY'S REQUESTS—THE PROPOSED CLASSICAL & MATHEMATICAL SCHOOL

FROM AN OCCASIONAL CORRESPONDENT OF THE TRIBUNE.]
PROVIDENCE, R. I., Sept. 26.—The fall term of Brown University opens with a Freshman Class of twenty-sixty and seventy. Some eight or ten more have entered on an advanced standing. All the professors and instructors are at their several posts of duty, and the wheels are fairly in motion for this coming year. Professor Harkness, who left the country in the summer of 1883 for a year's rest and recreation in the Old World, has returned to his work, apparently in perfect health. While in England he spent some time in Oxford, and received many valuable impressions which distinguished scholars who are their guests.

Two gifts of the late Senator Anthony to his "alma mater" are deserving of special mention. One of these was the sum of \$12,500, paid into the possession of the university at once on hand. The other is a sum of \$10,000 deposited in trust, to be used for the library, when such a word of explanation may be necessary. Many years ago the late Judge Albert Gorham Greene, a descendant by the way of the famous Samuel Gorham, distinguished in the annals of early Rhode Island history, began to collect books of American poetry. Of this specialty he became a noted bibliomaniac. At the time of his death the library which he had so nobly established was sold, and about 1,000 volumes were purchased by a gentleman of kindred tastes with Judge Greene, and who, for years, had been collecting a similar class of books from all quarters, both in this country and abroad. Mr. Elihu Root, Robert E. Livingston, East, William Eaton, L. D. White, Esq., L. P. Channing, and others, were present at the sale.

For higher classes, October 1. Young ladies department, Sept. 1. Classroom as possible.

It may be said that an encouraging beginning has been made in the matter of girls' and most promising now of the university's first-class gymnasium. It is proposed to raise the sum of \$50,000, of which not far from \$50,000 is to be used to build and equip the gymnasium while the income of the same is to be appropriated to its maintenance. A circular recently issued by the committee having the matter in charge, that "at the Alumni meeting the resolution to erect the gymnasium and with sufficient and heavy equipment, and the next day the classes shall be liberally to the fund and will shortly pay their salaried expenses to the measure of the expense." Can I do something to further this worthy object? A hearty and substantial response in the affirmative to this question will be greatly appreciated by the many young ladies trying in all ways to push forward an enterprise which they have on much at heart.
